Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-14, drawn to a data structure, classified in class 707, subclass 100.
- II. Claims 15-74, drawn to generating a database, classified in class 707, subclass 102.
- III. Claims 75-76, drawn to privileged access, classified in class 707, subclass 9.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as organizing files. The invention in Group II has a separate utility such as generating a catalog. The invention in Group III has a separate utility such as limiting access to objects. See M.P.E.P. 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I and II are not required for the other Groups, restriction for examination purposes as indicated is proper.

Art Unit: 2177

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Jeffrey Haley (Reg.No. 34,834) on August 6, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. An election, with or without traverse, must be made by the Applicant in replying to this Office Action.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R.

1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R.

1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

Art Unit: 2177
